INTRODUCTION

V.V. Karunaratne & Company a company counting over three decades of experience was registered on the 1st of December 1986 as a partnership company and is one of the leading establishments in Sri Lanka engaged in the fields of Transportation and Logistics, Inland Container operations, Customs Clearing and Forwarding (broking), Warehousing, Building Construction, Road Development, Aluminium Fabrication etc.

The Transport section contains the largest asset base of the Company. The fleet of vehicles of the Company is undoubtedly the largest in the Country. There are Prime Movers, 40' and 20' Trailers, Full bodied, Half bodied, Open and Flat-Bed lorries, Container Carriers, Fork Lifts, Tippers, Bowsers, Concrete Mixer Trucks and Construction Machinery. The client network comprises of several multi-national organizations, major public and private sector companies, medium and small scale industries and trading community across the country.

We have a reputation in the market for specialization in Custom House Clearing and Forwarding and a logistics provider. We have a well experienced and professional wharf section, which complements the transport section to form an effective logistics network. Our clearing and wharf staff are capable of handling all matters in respect of BOI and related documentation and also handling any type of shipment such as LCL FCL, Break-Bulk cargo, Project cargo, Containerized cargo and all types of Air-Freight of any magnitude.

All individuals are proficient in the Customs Harmonized System codes and other related matters in Sri Lanka Ports Authority etc. This team of our staff members also attend to matters related to Board of Investment Cargoes.

The Board efficiency shown by our Staff Members in the Customs House Agency work made Customs authorities to grant us GOLD CARD facility on a special consideration since last year. Therefore, we now enjoy the Gold Card facility while transacting business with Customs Authority and Sri Lanka Ports Authority.

The Inland Container Terminal, based at Nungamugoda, Kelaniya, just 9 kilometres from the Port of Colombo, has been the focus of tremendous development activity in the recent past. Consisting of 6 acres in extent, this yard is in the process of being macadamized, and has a variety of sophisticated handling equipment, which includes a 30 ton load forklift which has been an asset when stuffing heavy duty containers. A team of professionals man the yard.

Yard planning and container monitoring and reporting are made possible due to the advanced software programs, which are unique and tailor made to suit each customers requirement, hence the element of human error is almost eliminated. The yard operations are complemented by the transport division which consists of a formidable fleet of commercial vehicles.

The Company is very proud to declare that the Civil construction division is classified among the elite companies that are in possession of the highest level in grading (i.e) Grade M1 by the Institute for Construction, Training And Development (ICTAD), the governing body of the construction industry in Sri Lanka.

The Company has successfully completed several multi million building construction projects and Road Development projects awarded by the Government of Sri Lanka and also several large Private sector projects in the past. Currently, the Company is involved in several Road Development projects and

building projects funded by Asian Development Bank and other overseas donors under the implementation of Rehabilitation schemes.

The Aluminium fabrication section of the Company runs parallel with the building construction. All the materials of Aluminium are imported and of the highest standards. The Aluminium Fabrication Section is highly professionalized, having well qualified and overseas trained engineers manning the projects.

The Company with a futuristic view has planned for expansion in related fields and diversification into other trades. Focusing towards grandeur, the Company has incorporated several limited liability Companies such as, VVK Maritime Agencies (Pvt.) Ltd., VVK Alucon Industries (Pvt.) Ltd., VVK International Logistics (Pvt.) Ltd. and VVK Machinery & Equipment (Pvt.) Ltd., under the umbrella of V.V. Karunaratne & Co.

The management structure of the organization is headed by the Chairman Mr. V.V. Karunaratne, whose experience and knowledge in the fields of construction and transportation could only, be matched by few in the country. Mr. Karunaratne's sons have also now entered the family business and contribute towards the professionalism with hi-tech inputs which are cardinal factors in an organization which is rapidly expanding, with determination to reach the highest echelons of success.

OPERATIONAL DATA

WORKFORCE

The Company's fleet comprises a variety of vehicles such as Prime Movers, Trailers of different capacities, lorries with Full Body, Half Body and Flat Bed and Low Bed lorries, Tippers, Bowsers, Forklifts, Tippers and Concrete Mixer Trucks numbering 130 in total.

The segmental analysis of our workforce in the Logistics Division is as follows.

Finance & Accounting	- 20
H.R. Administration	- 10
Wharf & Clearing Section	- 20
IT Division	- 06
Workshop & Maintenance	- 50
Stores & Security	- 12
Drivers & Helpers	- 250

FLEET MAINTENANCE

We have a well-equipped auto workshop operating 24 hours-a-day manned by qualified and experienced auto technicians. All the vehicles in our fleet undergo a daily routine check before being released for operations. The entire fleet undergoes a thorough and systematic maintenance programme on a periodical basis at the workshop. An in-house developed software programme identifies the fuel efficiency and running efficiency of the individual vehicle of the fleet corrective action is taken in a very short period of time lapse.

TRAINING & SAFETY MEASURES

Our drivers are trained at Association of Container Transporters (ACT) and obtained certificates of competency. The drivers, in turn, train the other drivers in the workforce. Thus all the drivers in our employ are well versed in their operations. We regularly conduct in-house seminars and workshops for the operational staff. The workshops are held every month and the seminars are held in every three months period. The worker participation is very encouraging.

MAINTENANCE OF DISCIPLINE

The careful and Accident-free drivers are identified for every three month period and a valuable award is given to him at the end of each seminar. Strict disciplinary action is also taken against any errant drivers/cleaners immediately, if the complaint is proved.

CARE FOR ENVIRONMENT

Most of the vehicles in our fleet were purchased/imported brand new and of recent manufacture. They are void of any defects and never emanate exhaust fumes and pollute the environment. The vehicles are tested for running conditions prior to leaving our yard for operations. We are proud to state that our vehicles have never been charged for air and noise pollution and no customer has ever complained that our vehicles have violated the code of environment This bears testimony for our concern for environmental care.

TO WHOM IT MAY CONCERN

M/s. V V Karunaratne & Co. Transporters of Kandy Road, Kelaniya, a prospective aspirant for the "Transport Awards 2002" have requested a commendation from our Organization with a view to offering their candidacy for the "Transport Awards 2002" programme.

Karunaratne & Co. have been our chief transporter of finished products and have been associated with Ceyquartz MBI (Pvt) Ltd in undertaking our transport services since we commenced our production and disposal of products from our factory complex at Kongahawela in the Matale district to Colombo, from December 2000.

Karunaratne, who have a well organized and a full fledged fleet of vehicles have always carried out all transport works entrusted to them promptly and with great care and acceptance.

We have pleasure in giving this commendation to the latter Organization, which we are convinced, richly deserve an honour of this nature for their efficient and dedicated services both to us and the business community at large.

To whom it may concern

We wish to confirm that we are using the services of Messrs. V.V. Karunaratne & Company to containerize our Granite Blocks using heavy equipment and to transport them to the port of Colombo from their yard at Kelaniya.

The operation needs special handling skills, specifically to balance the containers with proper placement of blocks inside as not load by the shipping line. They are adequately equipped with the required machinery and expertise to carry out such work, which needs meticulous attention.

They also have successfully met many challenging schedules connected with our regular shipments of Granite Blocks in containers to various parts in the world.

We wish them success in their future endeavours.

24th, September 2002

To whom it may concern

We are in the manufacturing of corrugated packaging material and a one of the
leaders in this industry. Our factory is situated at Wewaldawwa Kelaniya 12
kilometers away from Colombo in a quiet village environment. We commenced
business in 1987.

Over the years we had difficulties in regularizing matters pertaining to our imports
of raw material and machinery. As an industry we have to rely on our raw material
basically imported from European countries and since late we also import our raw
materials from countries such as Malaysia China to name a few from the Far East
and India in the sub continent.

In this exercise in obtaining quick clearance from the port and transporting heavy
loads of raw material needed for our industry such as Kraft Liner paper and medium
paper rolls etc. have to be handled with extra care to avoid unnecessary damage.
This was a common feature and was a problem. With a view to eliminate unwanted
delays in customizing merchandise at the port and to avoid damage in
transportation we consulted V.V. Karunaratne & Co. 579, Bulugaha Junction,
Kandy Road Kelaniya who are geared in custom house clearance as well as
professionals in the haulage industry to handle our imports, in clearance and
transporting to our factory.

Thus we were able to redeem ourselves with the burden of clearing our cargo from
the port and transporting to our factory from the day we obtained their services since
year 2000.

We strongly recommend V.V. Karunaratne & Co. who requires the above services
and wish them all success in their future endeavours.

Letter of Commendation

We are a foreign collaborated BCI company catering to export oriented organizations for their packaging materials requirements. We obtain almost all our raw materials from abroad, we clear about 30 to 40 containers a month.

We have entrusted the handling of transport from the port to our factory to Messrs. V V Karunaratne & Co., they have done this operation efficiently and relentlessly to our great satisfaction. They happen to be specialists in transport of 20ft. and 40ft. containers irrespective of Import, Export or LCL cargo. During the above said period they have proven their credibility beyond our doubts and we have no reservations in recommending them to any party who intends to obtain the services of a reputed and reliable transporter.

Transport Award 2002

To whom it may concern

Dear Sir,

It is with much pleasure we place in record the wonderful service provided by M/S V.V.K. Karunaratne & company.

We are hereby pleased with the standard of service they provide in transporting our products to various destinations in the Island.

As you know our products are very fragile and expensive. Their staff take extra care in transporting them and are very honest in handing over them to our Distributors throughout in the Island. Our Distributors too commend their service.

Therefore we are proud to recommend the V.V. Karunaratne transporters for the "Transportation Award 2002".

Thanking you,
For Coca-Cola Beverages Distributors (Private) Limited.

ChevronTexaco

25th September 2002.

To Whom It May Concern

V.V. Karunaratne & Co. of # 579, Bulugaha Junction, Kandy Road, Kelaniya, has been providing their transport services since April 1999 to our organization as a registered supplier.

We have been employing their services mainly to transport lubricating oils to our warehouses and to inland depots. We can recommend that they have the capacity and a sufficient vehicle fleet to provide a very satisfactory transport service. This letter is been issued at their request.
